MOVIE NEWS!

SPIDER-MAN 3

Spidey's swinging back into cinemas this month, and there are two wicked new villains looking to spoil the web-crawlers fun! We reckon **Venom** and **Sandman** could be his toughest test yet, and we're so excited we're already queuing outside the cinema for tickets-with our Spidey costumes on of course!

BEN
10

5 things you never knew about...

RIPJAWS

Ben10 has 10 different types of Alien DNA contained in his Omnitrix watch. **Ripjaws** is just one of 'em! Wanna know more?! Read on...

WHERE?!

Volanns live on the planet Pisccis, which is covered entirely by a giant ocean.

THE ORIGINS

The alien DNA of Ripjaws came from a race known as the Volanns.

LET'S WALK

Although Ripjaws has two hind legs, the original alien race cannot walk, nor do they possess legs. Ben's Ripjaws form is one of a kind!

WEAKNESSES

Ripjaws requires moisture on land to keep from dehydrating, which quickly weakens him and renders him useless.

GET GLOWING!

Ripjaws has glow-in-the-dark antennae, allowing him to see in the dark depths of the ocean.

LOST

TREASURE AHoy....

The Eds are craaaazy about swag 'n' booty and if Edd's calculations are correct, they may finally be goldly going where many men have gone before....

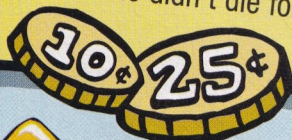

*oak Island, Canada

Three boys discovered the island in 1795, started digging and found a series of mystifying booby traps! Since then hundreds of people have searched the island for the buried treasure of the famous pirate Captain William Kidd. The three Eds think they can do better... Who are they kidding?!

*Brigantine Island, New Jersey, USA

Captain Kidd strikes again! Legend has it, he and his crew buried some loot on the island, which he and his first mate Jones moved after he'd sent the crew back to the ship. The villainous Kidd then murdered Jones and used his grave to mark the position of the treasure. At least he didn't die for nothing.... Yuck!

*Cocos Island, Costa Rica

A massive 11 boatloads of treasure are said to have been buried here by the sea captain turned pirate, William Thompson in 1821. While he chose to stow his loot in a cave, fellow pirate Benito Bonito buried his millions under ground in 1820. All the treasure is still waiting to be found; it's tunnelling time and Eddy's on the case...

TREASURE

* Lizard Point, Cornwall, England

The Cornish coast is littered with the remains of shipwrecks, including the treasure of pirate Captain Avery. Lizard Point has the world's highest density of wrecks. Gold pieces, watches and Pieces of Eight have been found in its depths by divers... With all that lovely treasure there's definitely more than fish in the sea! Satisfaction guaranteed.

* Island of Mahe, Seychelles

Not only is the island home to the buried treasure of the French pirate "La Buse" but he and many other pirates are buried there! It's believed that their ghosts protect the treasure which has never been found... Apart from a shoe buckle and two pistols! Well at least the Eds will have some help digging, even if it is from 'friends' in the paranormal world! Not for scaredy cats!

* Philippines, Asia

During the Second World War Japanese General Yamashita Tomoyuke, the "Tiger of Malaya", hid literally billions in gold and other loot in hundreds of secret locations in the Philippines. He was hanged after the war and he took the secret locations of the buried bounty with him to the grave. Bravery, and a gas mask, compulsory.
